

Alternative Funding Program

Total specialty pharmacy costs have risen exponentially over the past 10 years, with 10.9% trend from 2017 to 2018 and double-digit growth expected through 2020¹. That's why AEBRx powered by Magellan Rx Management has joined forces with industry-leading experts to create the **MRx Select Savings** program for members who are taking select specialty medications. MRx Select Savings reduces costs for both you and your members, with minimal impact on treatment time, and has been proven to produce **savings of up to 50% in specialty spend**.

While continuing to focus on the clinical needs of your members, MRx Select Savings has enhanced alternative funding and financial case management models to:

- Address the economic challenges that you and your members face
- Manage costs associated with rising specialty spend
- Improve access to specialty drugs, products, and services
- Empower your members to concentrate on their health, while we do the work to help reduce their costs

In many cases, alternate funding programs will pick up the full cost of specialty treatment.

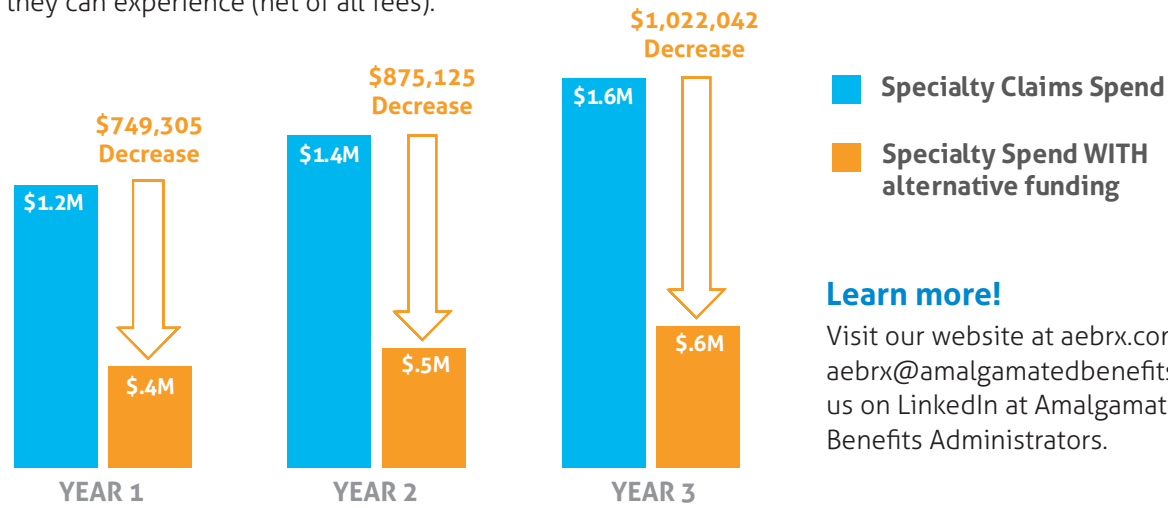

ADVOCATING FOR YOUR MEMBERS

Our team of advocates helps members access the specialty healthcare products and services they need to be successful with their treatment, while also finding the lowest-cost options available.

Powerful solution, proven results*

Below is an example of a customer with 3,600 members and the savings they can experience (net of all fees).
