

LIVE VIBRANTLY

Diabetes Management

Optimizing outcomes with a multi-modal approach

AEBRx powered by Magellan Rx Management has an entirely new approach to diabetes management. Our Live Vibrantly: Diabetes program focuses on improving wellness and diet, and optimizing medication use. We understand the challenges facing those with chronic conditions and the providers that treat them, and we take action with this multi-faceted diabetes management program designed to maximize outcomes and reduce unnecessary costs.

Key Program Elements

Annual Comprehensive Medication Review

Full medication reconciliation and evaluation with a Pharmacist

Recommendations relayed to member and provider

Focus on Diabetes Gaps in Care

Adherence
Powered by: MRxPredict

Blood Glucose Levels

HbA1c Testing/Control

Preventative Eye Exams

Blood Pressure Control

6-Week Wellness Session

Empowering patients to make positive behavior change

- Healthy Eating
- Carb Counting and Glycemic Index
- Meal Planning
- Oral Health and Hygiene
- Physical Activity
- Eating Out and Alcohol
- Follow-Up to Maintain Change

A Different Kind of PBM

We understand the challenges facing those with chronic conditions and the providers that treat them. It is through this widespread understanding that we are able to offer a multi-faceted diabetes management program that is designed to effectively address the key improvement opportunities at the various points of care.

Case Study Example:

Customer Description

Type: Commercial Health Plan
Magellan Rx Plan Since: 2011

Situation

Client was seeking ways to optimize medication therapy, prevent future health complications, and therefore decrease overall unnecessary spend.

Solution

MRx implemented a comprehensive disease management solution driven by Pharmacist-led telephonic outreach to physicians, providers, and pharmacies to address multiple gaps in care and drug therapy problems (DTP's) in order to improve outcomes and evidenced-based care.
